

# ACNCOIN WHITEPAPER

# Our Solution

We have planned an ecosystem of new solutions which will help users to save their assets as well as trade and use them for different services in the coming years. Also we will keep on researching on how we can reinvent the wheel in a way that blockchain can be used in most of the areas of day to day life and how it can be used for betterment of humankind and users of the technology.

# Vision and Mission

## Vision

To be at the forefront of new era of technology and innovations which serves next generation of human life , so they can live with more freedom and less fear.

## Mission

Is to give best products and services to users by exploring all possible frontiers in new technology and innovations, and also being socially responsible to our planet and our societies.

## Solution

We have planned an ecosystem of new solutions which will help users to save their assets as well as trade and use them for different services in the coming years. Also we will keep on researching on how we can reinvent the wheel in a way that blockchain can be used in most of the areas of day to day life and how it can be used for betterment of humankind and users of the technology.

<b>Presale Contract</b>	0x29367a6d16F1c0f8320A466D2f24e1971045757B

## General description

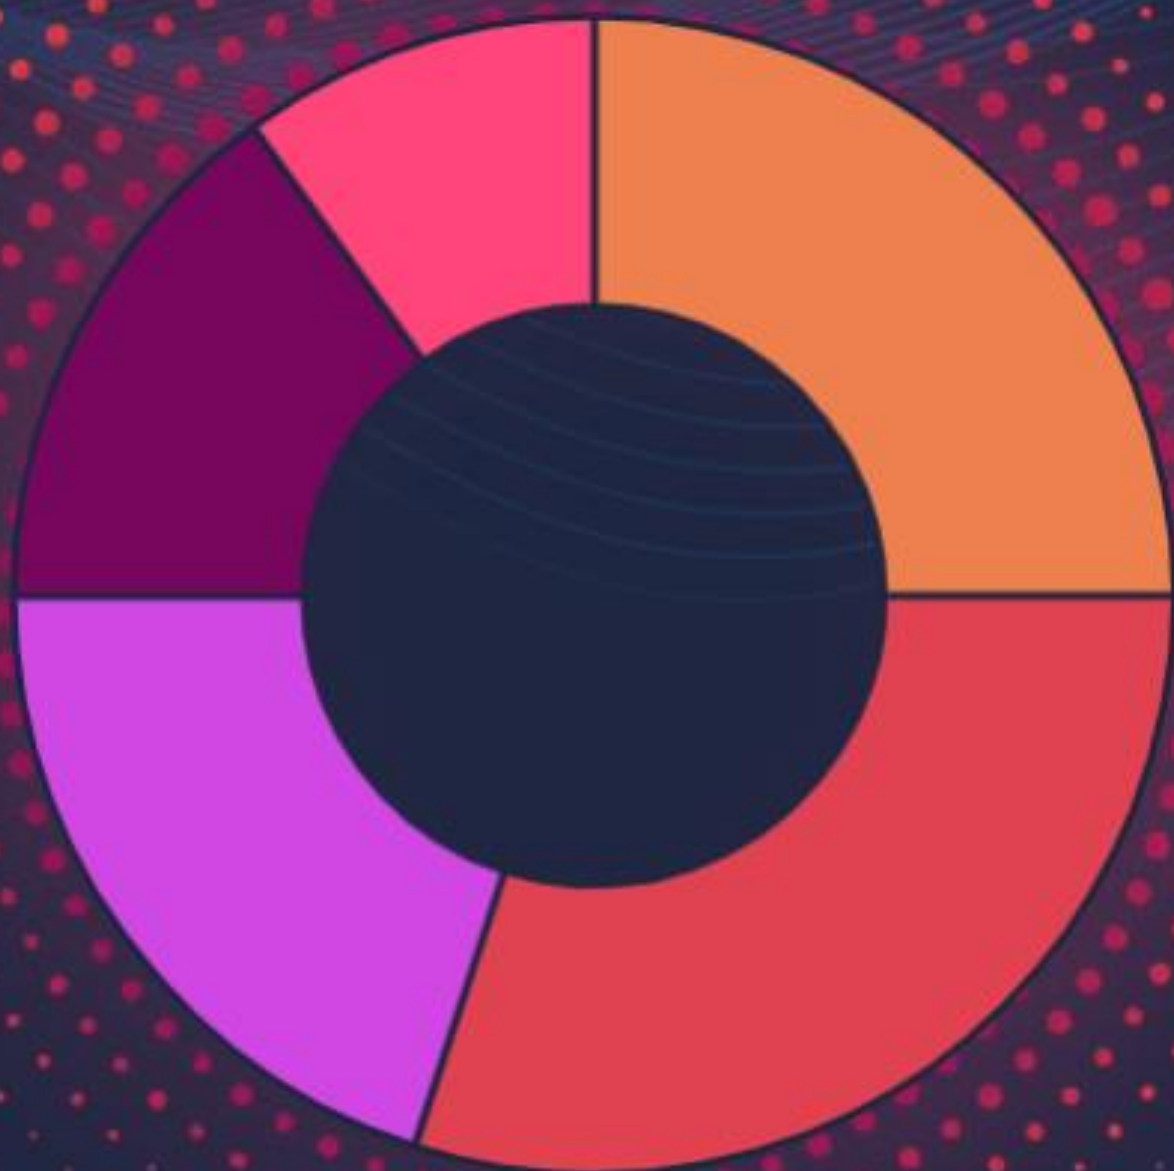

ACNCoin will be released on the basis of Binance Smart Chain platform and fully comply with BEP20 standard.

Support of this standard guarantees the compatibility of the token with third-party services (wallets, exchanges, listings, etc.), and provides easy integration.

OUR DATA

# Token Distribution

## Allocation of funds

Total token supply - 200M ACN

# Why Buy ACN

## HIGH SPEED AND LOW COSTS

Funding can be obtained without the involvement of third parties, thanks to immediate funding. Payments are automatically collected and released by smart contracts, operating autonomously.

## Simple To Use

Our platform will be extremely simple to use, with only the necessary options for users and other stakeholders.

## REAL-TIME Transactions.

Every Transaction and Updates are real time and directly pulled from Smart Contracts on the Blockchain

## GLOBAL P2P TRADE FINANCING

The peer-to-peer architecture of blockchain allows all cryptocurrencies to be transferred worldwide, without the need of any middle-man or intermediaries.

## PROTECTION FROM HACKING

By implementing robust protection measures, individuals and businesses can have peace of mind while leveraging the potential of ACNCoin in a secure and reliable manner.

## COST EFFECTIVE

Scale economy through decentralization leading to significant decrease in transaction fees.

# DISCLAIMER

Please read the following carefully.

Below applies to everyone who reads this white paper. The ACNCoin White Paper (hereinafter referred to as the "White Paper") is prepared and provided on the basis at the time of its preparation, so any content contained in the White Paper may be changed or updated at any time at the discretion of ACNCoin (hereinafter referred to as "The Company").

If you have any doubt on the content of this White, you should consult with your lawyer

1. The purpose of this white paper is to address summarized information and introductions about the ACNCoin platform the company is preparing. This white paper is not legally binding on the ACNCoin platform or company and does not have the nature of subscription, purchase, investment offers and investment enforcement.
2. All information or analysis in this white paper cannot be the basis for investment decisions and in no way constitutes investment proposal or advice.

We would like to inform you that any future-planned content or data in this White Paper may be changed for any reason.

3. Companies, including directors, agents, employees, contractors, and sales partners, are not liable for all kinds of damages that may occur directly or indirectly in accordance with the information contained in this document:

(1) accuracy and completeness of the contract;

(2) white paper error or omission;

(4) White paper unavailable. In addition, a company shall not be held solely responsible for any of the following consequences of a decision-making action using the information contained in this document:

(1) revenue, revenue, liabilities and all other forms of financial damage.

4. The content of the White Paper may vary depending on the ongoing ACNCoin platform, market changes, technological advances, and changes in ICO or token regulations. However, we inform you that the Company is not obliged to notify or report future events, platforms, future plans, changes in estimates or changes within the margin of error, etc. set forth in this white paper.

5. Information on areas such as law, tax, regulation, finance, and accounting in this white paper is not advice. Purchases of ACNCoin can result in material losses, including material assets paid to the buyer to purchase the ACN.

5. Inevitable risk: ACN platform is still under development and the company will try to develop and maintain ACN as stated in the white paper, but changes can occur for a variety of reasons, including legal, design, technology, and administrative regulations. Companies are exempt from liability for damages to value, loss and liquidity of ACNCoins due to force outside of the Company's control

6. Risks of change in value: the company does not guarantee the value of ACNCoins. The company may take relevant measures, such as changes in the value of ACNCoins, incineration, and so on, due to management or platform operational reasons. The company will be exempt from any damages caused by changes in the value of ACNCoins.
